

Shankar Gurung

Cybersecurity x Cloud Security - New York, USA

The full resume lands here soon.

The complete, up-to-date resume will be uploaded to this site around
end of September / beginning of October 2026.

Until then, everything below is current — and everything on the site is real and demonstrable.

CERTIFICATIONS – HELD

- > CompTIA Security+ CompTIA
 - > CompTIA Network+ CompTIA
 - > CCNA Cisco
 - > AWS Certified Solutions Architect - Associate Amazon Web Services
- In progress: Microsoft SC-200 (Security Operations Analyst)*

WHAT I BUILD AND RUN – HOMELAB CYBERSECURITY PROJECT

Production-grade Proxmox platform: 20+ VMs & containers, DNS filtering, TLS reverse proxy, 3-2-1 deduplicated backups, WireGuard overlay, zero exposed ports.
Isolated attack & defend range: Kali adversary vs. hardened Windows AD domain behind OPNsense;
Splunk detections for brute-force patterns (MITRE T1110), validated packet-to-alert with Wireshark.
Cloud: hybrid identity with Microsoft Entra Connect (OU filtering, MFA); AWS secure landing zone in progress.

EDUCATION

MS, Computer Science LIU Brooklyn - New York
